2. Activities of the Board of Directors in 2024

The Company's operations in 2024: The situation of world gasoline prices continues to fluctuate unpredictably due to the impact of the world political situation. The world oil price in the year has unpredictable fluctuations and the demand for domestic petroleum consumption has decreased due to the impact of rainstorms, especially Typhoon No. 3 Yagi and floods in the Northern region. In response to these developments, the Board of Directors of the Corporation closely monitored the situation and provided specific directives for the management and administration of The Board of Management.

* Overview of production and business results:

***General assessment of production and business results:**

PETEC has constantly made efforts to maintain and develop the market, well organize sales activities, ensure security and safety for fire and explosion prevention and fighting throughout the business system and petroleum depots; activities are fully implemented in accordance with regulations, guidelines and policies of the State and PVOIL.

Petroleum production in 2024 is 415.07 thousand m³, equal to 96% of the year plan approved by the General Meeting of Shareholders, an increase of 2% compared to 2023. Business results in 2024 according to the audited financial statements of PETEC's holding company are -34.5 billion VND. The main reasons come from objective factors such as: the continuous reduction in gasoline prices in 2024, fierce competition from units, tightening policies for petroleum distributors affecting the customer system, and the mechanism for managing gasoline prices according to the 7-day cycle have made customers more cautious in buying goods, customers only buy enough demand and do not speculate in large quantities, which will lead to consumption not reaching the set plan and affecting PETEC's profits.

The Board of Directors regularly meets, supervises and gives specific directions to the management and administration of the Board of Directors as follows:

- Production and business: Direct, urge and supervise the Board of Directors of The Company in implementing the production and business plan and other key tasks in 2024 assigned by the General Meeting of Shareholders and the Board of Directors; Implementing responses to market developments as well as the impact of Typhoon No. 3 (Yagi); Seize and take advantage of development opportunities to improve

business output, expand market share, and effectively exploit the petroleum depot system.

- Debt management: Strengthen debt management, prevent new bad debts from arising, monitor overdue debts, step up the recovery of outstanding debts and bad debts, and ensure a healthy financial situation.

- Asset restructuring: The Board of Directors has focused on directing the implementation of the approved policy plan, liquidating assets not participating in production and business activities, quickly completing legal documents of assets, ensuring implementation in accordance with the provisions of law.

- Governance, improving service quality: Continue to direct the Board of Directors to review, adjust and complete the development of new regulations, processes and internal regulations in accordance with the provisions of law and the actual operation of The Company. Continue to promote the implementation and maintenance of projects to improve the quality of petroleum warehouse services, PVOIL Easy services and integrated payment methods PVOIL Easy, PVOIL 4U, contributing to increasing retail output at petrol stations throughout the system. Strongly apply 4.0 technology and digital transformation to improve the governance and efficiency of production and business activities.

The Board of Directors always regularly coordinates closely and effectively with the Board of Directors and the Supervisory Board in implementing the resolutions of the General Meeting of Shareholders and the Board of Directors; supervise the compliance with the law and internal regulations in the management and administration of The Company's activities.

3. Summary of meetings and decisions of the Board of Directors in 2024

In 2024, the Board of Directors has held 08 meetings. The attendance situation of each member of the Board of Directors is as follows:

No.	Member of the Board of Directors	Number of meetings attended by the Board of Directors	Meeting attendance rate	Reasons for not attending the meeting
1	Nguyen Tuan Tu	5/5	100%	At the time of the meeting, the Board of Directors was dismissed
2	Truong Dai Hoang	3/3	100%	The time of the meeting is not yet the member of the Board of Directors

No.	Member of the Board of Directors	Number of meetings attended by the Board of Directors	Meeting attendance rate	Reasons for not attending the meeting
3	Nguyen Ngoc Lien	5/5	100%	At the time of the meeting, the Board of Directors was dismissed
4	Vu Thi Thu	3/3	100%	The time of the meeting is not yet the member of the Board of Directors
5	Tran Van Duong	8/8	100%	

In addition to organizing face-to-face meetings of the Board of Directors, in 2024, the Board of Directors will regularly exchange work via phone, email and organize written opinions in accordance with the provisions of the Law on Enterprises and the Charter of PETEC on issues under the jurisdiction of the Board of Directors.

In order to implement the tasks approved by the General Meeting of Shareholders, ensure the leadership/direction of PETEC's production and business activities regularly and continuously. DRAFT

**REPORT OF THE SUPERVISORY BOARD
AT THE 2025 ANNUAL GENERAL MEETING OF SHAREHOLDERS**

Dear General Meeting of Shareholders,

The Supervisory Board (SB) respectfully reports to the General Meeting of Shareholders (GMS) on the activities of the SB, the results of monitoring the implementation of GMS resolutions, the activities of the Board of Directors (BOD) and the Executive Board, as well as the appraisal of the 2024 financial statements of PETEC TRADING AND INVESTMENT CORPORATION (PETEC) as follows:

A. REPORT ON INSPECTION AND SUPERVISION RESULTS IN 2024

I. Activities of the Supervisory Board in 2024

1. Organizational Structure

The Supervisory Board of the Corporation consists of three members

- Mr. Hoang Anh Tuan - Chairman;
- Ms. Diep Thu Thuy - Full-time SB Member;
- Ms. Vuong Bich Tuyen - Part-time SB Member.

2. Activities of the Supervisory Board

In 2024, the activities of the SB and the responsibilities of each member were carried out based on the principles of ensuring effective supervision and inspection of PETEC's key areas. The management of PETEC was aligned with its development strategy and annual business plans approved by the GMS and BOD, while complying with relevant legal regulations. Based on the assigned tasks, SB members actively developed work plans and implemented their assigned duties. The SB focused on the following key tasks:

- Supervising compliance with state laws, PETEC's organizational charter, and operational regulations; ensuring adherence to relevant resolutions, decisions, and directives from the Vietnam Oil and Gas Group (PVN) and the Petrovietnam Oil Corporation (PVOIL); overseeing the implementation of GMS and BOD resolutions at PETEC;

- Attending BOD meetings to grasp policies, development orientations, and decisions related to PETEC's operations; participating in several meetings chaired by the General Director regarding business activities;

- Regularly reviewing and evaluating reports on business operations and financial status of PETEC; preparing quarterly inspection and supervision reports for the BOD;

- Assessing business results and financial statements; analyzing and evaluating financial status and capital preservation capabilities;

- Additionally, the SB regularly submitted reports as required by PVOIL's affiliated units to the parent company.

3. Summary of Supervisory Board Meetings

In 2024, the SB held 06 meetings, with details as follows:

- Meeting 1: January 5, 2024 (All 3 SB members attended)

Content: Discussing and formulating the SB's 2024 work plan; reminding departments to finalize 2024 contracts and certificates of eligibility for petroleum trading.

Outcome: All 3 members approved the 2024 SB work plan and emphasized the need for timely contract completion and renewal of business eligibility certificates.

- Meeting 2: March 15, 2024 (All 3 SB members attended)

- Content: Preparing the SB report for the annual GMS; reviewing reports from the BOD and Executive Board for the GMS.

- Outcome: The SB finalized and approved its report for the 2024 GMS and agreed on the content of reports to be presented.

- Meeting 3: June 20, 2024 (All 3 SB members attended)

- Content: Reviewing and providing feedback on investment, procurement, bidding, debts, expenses, and preparation for the mid-year business review conference; reminding the legal department and units to extend business eligibility certificates.

- Meeting 4: September 5, 2024 (All 3 SB members attended)

- Content: Reviewing and providing feedback on the expansion project of An Hai storage capacity, debts, expenses, etc.

- Meeting 5: October 4, 2024 (All 3 SB members attended)

- Content: Reviewing and providing feedback on investment, procurement, bidding, debts, and cash flow management; preparing for the Q4 2024 business review conference.

- Meeting 6: December 16, 2024 (All 3 SB members attended)

- Content: Conducting self-assessment of full-time SB members; reviewing and providing feedback on investment, procurement, bidding, debts, expenses, and cash flow management; reminding the legal department and units to finalize and renew contracts and business eligibility certificates.

Outcome: The two full-time SB members completed their individual reports and participated in the collective self-assessment conference for 2024.

Besides the six official meetings mentioned above, during the course of inspections, supervision, and periodic reporting, the SB continuously exchanged information and identified key areas requiring further investigation, discussion, and evaluation.

Summary of Conclusions and Recommendations of the Supervisory Board

In 2024, based on the information and data received from the Corporation, the Supervisory Board conducted reviews, analyses, and evaluations and provided recommendations to enhance business efficiency. The SB's feedback mainly focused on receivables management, petroleum trading operations, the development of the petroleum retail network, bidding and procurement processes, cost management, etc.

The SB observed that its recommendations were acknowledged by the Corporation.

The Corporation has directed its units to strengthen receivables management, ensure security in sales operations, improve loss control, etc.

4. Compensation and Operating Expenses of the Supervisory Board

- Total salary paid to full-time SB members (two people): 798,469,000 VND;
- Remuneration for the part-time SB member (one person): 36,000,000 VND.

II. Results of Supervisory Monitoring of Corporate Operations and Financial Performance

1. Implementation of the 2024 GMS Resolution

According to GMS Resolution No. 1391/NQ-PTC dated April 19, 2024, the key business targets and actual performance results for 2024 are as follows:

No.	Description	Unit	Year 2023	Planned for 2024	Actual for 2024	% of Plan Achieved	% 2023
1	Sales volume of petroleum	m ³ /tons	415.071	440.000	423.794	96%	102%
2	Revenue from Business Operations	billion VND	7.388,3	6.852,8	7.176,6	105%	97%
3	Total Pre-Tax Profit	billion VND	20,1	15,0	-34,5	-230%	-172%
4	Allocation of Geographical Advantage	billion VND	20,1				
5	Profit before tax (Parent company)	billion VND	0	0	-34,5		
6	Profit before tax (Consolidated)	billion VND	0,5	0,2	-36,0		

Performance Evaluation

- Output: Thanks to continuous efforts to maintain and expand the customer base as well as efficiently managing supply sources, the 2024 output reached 423,794 m³/tons. Although it did not meet the target, it increased by 2% compared to the previous year, marking the highest output level since 2014.

- Revenue: Reached 7,176.6 billion VND, achieving 105% of the plan and 97% compared to the previous year, due to the average fuel prices declining from the previous year.

- Pre-tax profit: The 2024 pre-tax profit of the corporation was -34.5 billion VND, failing to meet the target.

* *Causes:* In 2024, global geopolitical instability negatively impacted the global economy, especially the fuel market. Oil prices fluctuated sharply, with an upward trend in Q1, a decline in Q2, and continuous deep declines in Q3, significantly affecting the fuel business (KDXD). Specifically:

- **Impact of oil price fluctuations:** PETEC's inventory at the beginning of the year had a high cost price, making inventory management difficult as oil prices continuously declined.
- **Customer structure:** The majority of PETEC's customers are Petro and oil distributors. When prices fall, selling becomes challenging. Meanwhile, the Petro and oil franchisees and industrial customers, who have stable demand, account for only a small proportion.
- **Retail channel:** Direct retail sales through the Petro and oil stations system generate the highest profit margin, but only 11% of total output, making it insufficient to impact overall fuel business efficiency.
- **Other business activities:** Other business operations such as warehouse and port leasing generated higher revenue than the previous year but were not enough to offset rising expenses.
- **Network and infrastructure:** PETEC's nationwide network is both an advantage and a disadvantage due to its complex system and high fixed costs. Additionally, the infrastructure of fuel depots and stations system are old, leading to high maintenance costs.

2. Supervision of Business and Production Activities

2.1. Finalization of Equitization and UPCOM Trading

By the end of 2024, the Vietnam Oil and Gas Group (PVN) had not yet approved the equitization finalization for PETEC. The amount PVN still has to provide to PETEC according to the equitization finalization request is 281 billion VND, including: 111 billion VND in unpaid charter capital and 170 billion VND in losses incurred between the enterprise valuation date and the official transfer to the joint-stock company.

The charter capital of PETEC (according to the Business Registration Certificate) is 2,600 billion VND. PETEC's shares are currently traded on the UPCOM exchange under the ticker **PEG**. The number of registered trading shares is 248,877,470 shares, while 11,122,530 shares are not registered for trading (owned by PVOIL, corresponding to 111.22 billion VND of unpaid charter capital).

2.2. Organization and Personnel

The current organizational structure of PETEC includes: Board of Directors, Supervisory Board, Board of General Directors, 06 specialized departments at the head office, 25 branches (06 of which operate with a fully structured organization), 03 directly managed fuel enterprises), 02 subsidiaries, 02 affiliate companies.

2.3. Investment in Infrastructure Construction, Fixed Asset Procurement, Asset Restructuring and Financial Investments

2.3.1. Investment in Infrastructure Construction and Fixed Asset Procurement for Business Operations

In 2024, PETEC implemented the Hai Phong Fuel Storage Expansion Project and carried out maintenance and repairs at fuel depots and retail stations (CHXD). The total investment and fixed asset procurement amounted to 28.1 billion VND.

Investment and procurement activities were conducted in compliance with the Construction Law, Bidding Law, and PETEC's internal regulations, adhering to the financial management regulations and investment decision-making hierarchy. No incidents, losses, waste, or violations occurred.

2.3.2. Asset Restructuring and Financial Investments

- To optimize asset utilization, the BOD issued a resolution approving the handling of unused assets to generate business capital. However, due to legal procedural issues, PETEC has not yet been able to legalize the necessary documentation. The company is continuing procedures to obtain ownership/use rights for the following properties: 93 Dinh Tien Hoang, Binh Thanh District, 70 Vo Thi Sau, Vung Tau, 26 Tang Bat Ho, Hanoi. Once ownership procedures are completed, these assets will be processed accordingly.

- As of December 31, 2024, the book value of long-term financial investments was 127.7 billion VND, with a provision for long-term securities devaluation of 31.6 billion VND, covering investments in Petec Coffee JSC, Petecland, and Petec Logistics.

2.4. Legal Compliance in Business Transactions

- Fuel Business: PETEC executed new contract formats tailored to different types of fuel business traders, in accordance with Decree 83/2014, Decree 95/2021, and Decree 80/2023.

- Other Business Activities: Contracts for warehouse leasing and other business transactions were fully executed.

- All economic contracts were structured carefully to ensure compliance with economic law.

2.5. Accounting System Organization

- PETEC's financial accounting system is comprehensive and well-structured, regularly updated to reflect the latest financial, accounting, and tax regulations, ensuring smooth tax and financial reporting.

- The 2024 financial statements were prepared for the fiscal year starting from January 1, 2024, to December 31, 2024, using the formats and templates specified in Circular 200/2014/TT-BTC (issued on December 22, 2014).

- Management accounting: PETEC regularly generates daily, weekly, monthly, and quarterly financial and business performance reports to support management and operational decisions.

2.6. Financial Reporting, Tax Declaration, and Audits

- PETEC complies with quarterly and annual financial reporting requirements, submitting reports to relevant authorities in full and on time.

- Tax reports are prepared accurately and promptly, with all tax liabilities declared and paid as per legal regulations.

3. Appraisal of the 2024 Financial Statements

The 2024 financial statements of PETEC were audited by An Viet Auditing Co., Ltd.. After review, the Supervisory Board agreed on the final financial figures as follows:

III. Report on the Control of Transactions Between the Corporation and Related Parties

In 2024, PETEC engaged in transactions with related parties that had transactions with the company within the past three years before the transaction date as follows:

- To support its business operations, PETEC signed fuel consumption and service contracts with PVOIL, in which Mr. Nguyen Tuan Tu served as PETEC's Chairman of the Board of Directors (BOD) from June 2021 to September 24, 2024, and Mr. Trương Đại Hoàng currently holds the position of Deputy General Director of PVOIL.

- PETEC had a transportation contract with PVOIL TRANS for fuel transportation to support its production and business activities. Mr. Nguyen Ngoc Lien, a member of PETEC's BOD, previously served as Chairman of the BOD of PVOIL TRANS from December 2014 to February 2022.

- PETEC signed a fuel consumption contract with PETEC Coffee Joint Stock Company, where Mr. Trinh Anh Tuan, PETEC's Chief Accountant, is currently the Chairman of PETEC Coffee's BOD.

IV. Results of Supervisory Activities of the Board of Directors and the Executive Board

1. Activities of the Board of Directors

In 2024, the BOD underwent changes: Mr. Nguyen Tuan Tu (Chairman of the BOD) and Mr. Nguyen Ngoc Lien (BOD member) were dismissed from their positions on

September 24, 2023. Mr. Truong Dai Hoang was elected/appointed as Chairman of the BOD, and Ms. Vu Thi Thu was elected/appointed as a BOD member on September 24, 2024. As of December 31, 2023, PETEC's BOD consisted of three members, one of whom was concurrently holding another position.

Through supervision, the Supervisory Board observed that the BOD exercised its authority and responsibilities fully in directing and managing PETEC, aligning with the company's charter and the Law on Enterprises.

In 2024, the BOD held regular and extraordinary meetings to review and assess business performance, approve policies and directions to ensure compliance with the approved General Meeting of Shareholders (GMS) plan, and issue resolutions, decisions, and directives for corporate management. The BOD actively monitored the implementation of issued resolutions/decisions, provided timely guidance, and facilitated the Executive Board, the Supervisory Board, and related organizations in fulfilling their duties.

2. Activities of the Executive Board

In 2024, the Executive Board appointed Mr. Phung Nhu Dung (September 4, 2024) and Mr. Nguyen Ba Nam (November 15, 2024). As of December 31, 2024, the Executive Board had 04 members.

The Executive Board strictly implemented the resolutions of the GMS and BOD, exercising caution in managing all aspects of PETEC's operations while complying with laws and internal regulations.

Given global economic uncertainties, high inflation, tightening monetary policies, and volatile global oil prices, the domestic fuel market experienced intense competition, shortages, and supply restrictions due to fears of financial losses. The Executive Board made significant efforts to navigate these challenges, adopting proactive business and management strategies. By optimizing inventory and discount policies, the company maintained its customer base, expanded its market share, and improved business performance.

3. Coordination Between the Supervisory Board, Board of Directors, and Executive Board

The coordination between the BOD, Executive Board, and Supervisory Board was close, supportive, and aligned with management and operational needs. Each entity understood and fulfilled its duties under the Law on Enterprises and PETEC's charter. Despite different functions and responsibilities, all departments worked towards stabilizing the company, overcoming challenges, and maximizing shareholder benefits.

The BOD and Executive Board provided the Supervisory Board with favorable conditions for performing its duties. The Supervisory Board also received support and cooperation from PETEC's departments and subsidiaries. Information, reports, and accounting records related to PETEC's operations were provided promptly and comprehensively.

V. Conclusion and Recommendations

The Supervisory Board agrees with the BOD's 2024 corporate governance report, the

financial statements, and the business results report for 2024. The Supervisory Board respectfully requests the General Meeting of Shareholders to approve these reports.

The global economy is expected to face significant challenges in 2025, with trade tensions showing signs of escalating, potentially affecting global supply chains. Oil prices remain subject to unpredictable fluctuations due to geopolitical factors such as the Russia-Ukraine conflict, the Middle East region. Additionally, policies implemented by U.S. President Donald Trump could drive an increase in domestic oil production, boost supply from OPEC, and influence global oil demand, particularly from China... Domestically, the fuel market will see increasing competition, and PETEC will face rising fixed costs. As a result, achieving the 2024 business plan will be highly challenging. The Supervisory Board recommends that PETEC's leadership:

- Strengthen existing markets while seeking new opportunities, adjusting inventory and discount policies based on global oil price forecasts and domestic market trends. Actively source external fuel supplies whenever profitable and enhance the efficiency of retail fuel sales.

- Seek customers interested in leasing storage facilities to optimize warehouse utilization and improve competitive discount offerings in the fuel sector.

- Enhance cost-saving initiatives, eliminate waste, and rationally reduce expenses.

- Strictly enforce credit management regulations by reassessing credit limits and payment terms, reducing credit exposure, ensuring timely payments, preventing new bad debts, and focusing on recovering outstanding debts-especially those under legal execution. Collaborate with law enforcement to expedite debt recovery.

- Strengthen supervision and accountability of capital representatives in subsidiaries, reinforce internal controls, and conduct frequent inspections to address challenges promptly, ensuring smooth implementation of the 2024 business plan.

B. WORK PLAN FOR 2025

In accordance with the authority and responsibilities of the Supervisory Board as stipulated in the Enterprise Law, the Company's Charter, and the business and production tasks approved by the 2025 Annual General Meeting of Shareholders, the Supervisory Board will focus on inspecting and supervising the following key activities:

- Continue to perform the duties of inspecting and supervising corporate governance and business operations in accordance with the functions and responsibilities specified in the Enterprise Law and the Company's Charter.

- Supervise compliance with legal regulations, organizational and operational charters, and the implementation of regulations, resolutions, and decisions issued by the GMS and the Board of Directors.

- Inspect and supervise the implementation of production and business activities, as well as the company's investment projects.

- Appraise financial reports, assess operational efficiency and debt repayment capacity, and evaluate the management, preservation, and development of the company's

equity capital. Collaborate with PVOIL's capital representatives in managing PVOIL's capital at PETEC and PETEC's investments in other enterprises.

- Supervise capital balance and cash flow management.

- Carry out other tasks assigned to the Supervisory Board by the GMS, PVOIL, and relevant regulations.

This report presents the Supervisory Board's assessment of the Board of Directors and General Director's activities, as well as the evaluation of PETEC's performance in 2024 and the work plan for 2025.

We respectfully submit this report to the GMS for review and approval.

We wish all shareholders good health and success.

We wish the GMS a successful meeting.

**REPORT
PRODUCTION AND BUSINESS RESULTS FOR 2024
AND PLAN FOR 2025**

To: General Meeting of Shareholders of PETEC Trading and Investment Corporation

The Board of Directors of PETEC Trading and Investment Corporation (PETEC) would like to report on the results of the implementation of the production and business plan in 2024 and the plan for 2025 as follows:

I. Production and business results for 2024

1. General context

In 2024, the global petroleum market remained volatile due to the ongoing Russia-Ukraine conflict, which continued to impact the global supply chain. Oil prices were unpredictable and posed significant risks;

Domestically, the petroleum business sector continued to face price adjustments, supply challenges, and monetary policy changes, etc.

2. Production and business results

PETEC implemented synchronized and decisive solutions across all areas to enhance business efficiency. The specific business results are as follows:

a) Revenue from business activities in 2024 reached VND 7,176.6 billion, achieving 105% of the 2024 plan and 97% compared to 2023.

b) Gross profit in 2024 was VND 241.5 billion, achieving 81% of the 2024 plan (VND 298.0 billion) and 98% compared to 2023 (VND 247.5 billion).

c) Pre-tax loss in 2024 was VND -34.5 billion.

2	PVOIL Lube Lubricants	litre	14,500	18,789	130%

a) Petroleum sales volume in 2024 reached 423,794 m³, achieving 96% of the 2024 plan and 102% compared to 2023.

b) The retail system made significant progress. Alongside ensuring supply across the entire system, retail sales at petrol stations reached 47,178 m³, accounting for 11% of total sales volume, achieving 122% of the same period in 2023 and 114% of the 2024 plan.

c) PVOIL Lube lubricant sales in 2024 reached 18,789 liters, achieving 127% of the same period in 2023 and 130% of the 2024 plan.

2.2. Terminal, port, and other service business activities

a) Petroleum terminal and port business: In 2024, revenue from petroleum warehouse services reached VND 136.7 billion, 99% compared to 2023 and 120% of the 2024 plan.

b) Phu Dinh General Terminal: No safety, security, or fire protection incidents occurred. Revenue in 2024 was VND 6.6 billion, achieving 100% compared to 2023 and 100% of the 2024 plan.

c) Filling station leasing and other services: PETEC collaborated with VinFast to install charging stations at petrol stations. Revenue from filling station leasing and other services in 2024 reached VND 10.4 billion, achieving 152% compared to 2023 and 141% of the 2024 plan.

2.3. System development

Besides expanding its wholesale customer network, PETEC actively sought long-term rental opportunities for petrol stations and identified partners willing to transfer petrol stations for PVOIL investment and PETEC leasing. As a result, PETEC expanded by adding five new petrol stations in 2024, bringing the total number of PETEC-operated stations to 42.

3. Investment in construction, maintenance and repair of assets

In 2024, PETEC continued to implement the Hai Phong Petrol terminal expansion Project, renovate infrastructure, and procure equipment for warehouses, ports, and the petroleum retail system. These efforts aimed to ensure smooth business operations and enhance the company's image to facilitate business partnerships with customers and partners.

Unit: billion VND

No.	Items	Implementation in 2024
1	Expansion investment in Hai Phong petrol terminal	2.52
2	Maintenance, repairs, and equipment procurement for petroleum terminal and branches	22.44
3	Modernization of fuel dispensers at petrol stations	2.16
4	Development and approval of safety management documents for Hoa Hiep, Cai Mep, and PETEC Vinh Long terminals	0.98
Total		28.10

4. The implementation of legal documents on assets and real estate

a) PETEC has a complete and updated legal dossier on asset usage in compliance with legal regulations. The assets are being effectively utilized for PETEC's business activities. In 2024, PETEC completed the legal procedures for obtaining the Land Use Right Certificate for a 600m² plot on Hoang Ngan Street, Binh Han Ward, Hai Duong City (Binh Han – Hai Duong Filling Station).

b) Functional departments and PETEC units (Finance & Accounting, General Planning & Strategy, Petroleum Engineering, and branches/subsidiaries) have collaborated to review all legal documents related to PETEC's assets. Based on this review, PETEC has worked on completing legal documentation, particularly for the following properties: 2,289.1m² Land in Ben Luc City, Ben Luc District, Long An (PETEC Long An Filling Station No.1); Linh Yen petrol station, Ninh Giang district, Ho Chi Minh City. Hai Duong (currently leased to PVOIL Hai Phong).

5. Human resource training

PETEC organized training sessions and nominated employees to participate in training programs conducted by PVOIL, as well as in-house training sessions, to enhance professional competency and support business operations. The total number of employees participating in the training was 702 with a budget of VND 480.5 million.

6. Overall assessment

2024 was a year of market fluctuations, yet PETEC managed to achieve 102% of the planned revenue target and 92% of the planned sales volume target. However, profit targets were not met as expected by the General Meeting of Shareholders.

The Company's investment activities complied with government and corporate regulations, ensuring safety and investment efficiency without any incidents.

Moving forward, PETEC must address existing challenges to enhance business efficiency, achieve profitability, and meet shareholders' expectations.

II. Production and business plan for 2025

1. Objectives

In 2025, PETEC aims to maintain operational efficiency and establish a foundation for business growth with the following specific targets:

a) Profit before tax: Determination to complete/exceed the plan.

- Holding company: minimum profit of VND 1.5 billion (excluding the cost of allocating geographical location advantages of land plots as prescribed at Point b, Section 24, Article 1 of Decree 140/2020/ND-CP dated November 30, 2020 of the Government).

- Consolidated profit in 2025: minimum profit of VND 1.6 billion (excluding the cost of allocating geographical location advantages of land plots as prescribed at Point

b, Section 24, Article 1 of Decree 140/2020/ND-CP dated November 30, 2020 of the Government).

b) Planned sales volume: 410,000 m3.

c) Effective cost control.

2. Targets of the plan in 2025

PETEC sets goals to strive for 2025 to complete the assigned targets, specifically as follows:

Authorize the Board of Directors to review and approve the adjustment of the production and business plan in 2025 (if any) when there is a change in the actual price of gasoline and report the results to the General Meeting of Shareholders and disclose information as required by regulations.

3. Implementation solutions

To achieve the above plans, PETEC has proposed specific implementation solutions as follows:

a) Petroleum, lubricant business, and market development

- Strengthen price trend forecasting, closely review consumption demand, and register supply plans aligned with actual consumption. Business operations should be managed proactively and flexibly, employing a fast-buy, fast-sell approach to maintain inventory at a reasonable level of 5,000-7,000 m³, considering the 7-day retail price adjustment cycle. This also helps mitigate risks in the case of sharp and continuous retail price declines. Develop effective sales strategies to maximize business efficiency.

- Closely follow the market to have a flexible, timely and appropriate discount policy at each time.

- Expand the customer base, especially targeting wholesale distributors to increase sales volume.

- Maintain the customer system, have a plan to contact customers to have appropriate solutions and policies.

- Continue to implement sales with PVOIL B2B software system: PETEC has deployed 100% of B2B warehouses.

- Strengthen marketing efforts and introduce PVOIL LUBE lubricant products at PETROL STATION to increase lubricant sales.

- Coordinate with V-Green to implement charging station rental services at PETROL STATION, aiming to expand to all PETROL STATION within the entire system.

- Modernize fuel dispensers and integrate them with sales software to develop an ecosystem that meets the diverse needs of current and future customers.

- Actively seek opportunities to develop PETROL STATION through long-term leasing or introduce investment opportunities to PVOIL for PETEC to lease back, ensuring capital balance in compliance with regulations and investment efficiency. PETEC aims to develop at least three new PETROL STATION per year.

- Coordinate with PVOIL to implement brand identity decoration at newly leased PETROL STATION. Proactively inspect and repair deteriorated facilities using PETEC's budget.

- Continue promoting and training soft skills among PETROL STATION employees, striving for all PETEC PETROL STATION to achieve a rating of "Fair/Good" or higher under Project 1114.

b) Providing warehouse services and other services

- Promote the exploitation of petroleum warehouses and wharves towards the goal of leasing at least 75% of the capacity at Cai Mep petrol terminal, 100% of the capacity at Hoa Hiep petrol terminal and Hai Phong petrol terminal, optimally exploiting the capacity of PETEC Vinh Long petrol terminal.

- Coordinate well with PVGAS to operate the wharf at Cai Mep petrol terminal to ensure efficiency and safety.

- Supplementing the port capacity of 5,000DWT, adjusting the land planning of phase 2 to effectively exploit Cai Mep port warehouse infrastructure.

- Continue the maintenance and repair work according to the plan to ensure stable and safe operation at petrol and oil depots.

- Properly implement Project 808, improve the efficiency of petrol terminal services, ensure the operation and exploitation of the depot both effectively and safely, especially epidemic prevention and control safety, fire and fire safety.

- For Phu Dinh general warehouse: Continue to improve service quality, ensure facilities to maintain lease with the current maximum area.

- Other services: Coordinate with V-Green to deploy rental services to set up charging stations at petrol stations and other land areas, put charging stations into operation, and expand to all eligible petrol stations in the whole system.

c) Finance

- Investment and capital arrangement:

- + Accelerate investment progress to promptly put the expanded Hai Phong petroleum storage into operation, contributing to improved business efficiency. In the investment process, develop detailed plans, manage scientifically, respond flexibly, ensure safety, optimize costs, control quality, and apply new technologies. Actively coordinate with PVOIL to complete procedures as quickly as possible while ensuring compliance with current legal regulations on investment and project management.

- + Focus on the maintenance, repair, and renovation of infrastructure in a targeted manner. Maintain strict control over construction investment costs, facility maintenance, and equipment procurement.

- + Continue reviewing and divesting financial investments in Saigon Fuel Joint Stock Company, Dong Nai Building Material and Fuel Joint Stock Company, PETEC

Coffee Joint Stock Company, PETEC Logistics Joint Stock Company, Petrol Technique Land Joint Stock Company Limited, and Au Lac Joint Stock Company to ensure efficiency and compliance with regulations.

- + Execute liquidation, transfer, and cooperation of unused or ineffective assets, ensuring they meet the necessary conditions for liquidation, transfer, or cooperation according to regulations.

- Strictly control debt management and cost savings, preventing waste:

- + Continue closely following legal rulings and enforcement procedures, seeking additional legal grounds, and monitoring customers to increase opportunities for recovering outstanding debts.

- + Maintain tight control over receivables from wholesale and retail activities at CHXD to prevent bad debt accumulation.

- + Further strengthen cost-saving measures and waste prevention.

- + Continue enhancing management, cost control, and risk prevention efforts..

d) Administration and human resources

- Strengthen mid-level management personnel, focusing on branch and business unit directors to enhance business capacity, drive market expansion, and increase customer engagement.

- Decisively implement accounting software and enterprise management software (for wholesale, retail, and warehousing) to support business administration.

- Develop workforce planning for departments and business units to establish a lean and efficient organizational structure.

- Implement appropriate salary policies to ensure employee livelihoods, strive to increase income levels, and guarantee salaries remain at least equal to the previous year, allowing employees to work with peace of mind.

e) Other tasks

- Strictly comply with regulations on safety - fire and explosion prevention, environmental protection, ensuring the safety of people and property in production and business activities.

- Functional departments and units continue to organize the completion of all legal documents of assets, focusing on assets including: Land area of 2,289.1m² in Ben Luc City, Ben Luc District, Long An (PETEC Long An Petrol Station No. 1); Linh Yen petrol station, Ninh Giang district, Ho Chi Minh City. Hai Duong; land at PETEC Hoa Hiep petrol station; land lot 93 Le Van Duyet (Dinh Tien Hoang); Dam Ba Tai land area – Ho Chi Minh City. Hai Phong; 26 Tang Bat Ho - Ho Chi Minh City Hanoi; land area 223 Vo Thi Sau, Vung Tau City.

- Perform well in the management of departments.

We respectfully submit this report for the General Meeting of Shareholders' consideration and approval.

We sincerely appreciate your time and extend our best wishes for good health, happiness, and success to all distinguished delegates, guests, and shareholders./.

STATEMENTS

Regarding the selection of an auditing firm for the 2025 Financial Statements

To: The General Meeting of Shareholders
PETEC Trading and Investment Corporation

According to the Charter of the General Trading, Technical and Investment Joint Stock Company, the selection of an auditing firm will be decided by the General Meeting of Shareholders. However, as there are currently no conditions to present a specific auditing organization for the General Meeting of Shareholders to decide on, we respectfully request that the General Meeting authorizes the Board of Directors, based on the proposal from the Supervisory Board, to select an independent auditing firm to audit the 2025 financial statements by appointing one of the following three auditing firms:

1. An Viet Audit Co., Ltd;
2. AFC Vietnam Audit Co., Ltd;
3. AASCS Audit Co., Ltd.

The aforementioned auditing firms have been approved by the Ministry of Finance to audit organizations issuing securities, listed entities, and securities business organizations in 2025.

We respectfully request the General Meeting to agree and approve this proposal../.

PROPOSAL

Re: Approval of contracts and transactions between PETEC Trading and Investment Corporation (PETEC) with Petrovietnam Oil Corporation (PVOIL)

To: General Meeting of Shareholders of PETEC Trading and Investment Corporation.

Pursuant to the Law on Enterprises No. 59/2020/QH14 adopted by the 14th National Assembly of the Socialist Republic of Vietnam on June 17, 2020 and guiding documents;

Pursuant to the Law on Securities No. 54/2020/QH14 adopted by the 14th National Assembly of the Socialist Republic of Vietnam on November 26, 2020 and Decree No. 155/2020/ND-CP dated December 31, 2020 detailing the implementation of a number of articles of the Law on Securities;

Based on the Charter of organization and operation of PETEC Trading and Investment Corporation.

1. The necessity of entering into contracts and transactions between the PETEC Trading and Investment Corporation (PETEC) and PetroVietnam Oil Corporation (PVOIL)

In the coming years, PETEC is expected to continue entering into contracts for the purchase of petroleum from PVOIL for the following reasons:

- PETEC does not have a petroleum business license and operates in the petroleum business only under a petroleum trading authorization contract with PVOIL. Additionally, according to the inspection conclusion of the Ho Chi Minh City Department of Industry and Trade, PETEC is only permitted to purchase petroleum from PVOIL and is not allowed to purchase from other key petroleum traders;

- PVOIL is a member company of Vietnam National Oil and Gas Group, holding a controlling stake with 94.55% ownership of PETEC's contributed capital, and a large-scale and reputable entity in both domestic and international markets;

- PVOIL is a key petroleum trading enterprise as designated by the State, having policies to support branding and signage at petrol stations throughout its system;

- PVOIL offers flexible discount and pricing policies in line with global and domestic market conditions. The transaction price between PVOIL and PETEC is determined based on PVOIL's sales policies at the time of purchase;

- PVOIL implements flexible sales policies, ensures a stable supply, and maintains a nationwide terminal and port infrastructure system aligned with PETEC's business model, contributing to an efficient sourcing mechanism and dynamic inventory management to maximize PETEC's overall effectiveness;

- PVOIL provides a payment policy that accommodates PETEC's financial situation, offering unsecured credit with a repayment term of 30 to 45 days. As of December 31, 2024, PETEC's outstanding debt to PVOIL was VND 448.46 billion. PETEC has been facing significant financial difficulties over the past years, with a capital imbalance as of December 31, 2024 (short-term assets were VND 181.12 billion lower than short-term liabilities). Given its current financial distress, PETEC lacks sufficient capital to sustain its petroleum business. Obtaining loans from banks, financial institutions, or other credit sponsors is highly challenging due to PETEC's accumulated losses and debt servicing burden.

Thus, PETEC's production and business activities currently depend on PVOIL and its ability to generate future profits.

2. Rationale for seeking approval from the General Meeting of Shareholders and authorizing the Board of Directors to approve PETEC's petroleum trading transactions with PVOIL - a major shareholder owning 94.55% of PETEC's charter capital

The transaction value between PVOIL and PETEC over the past 3 years and expected in 2025, specifically as follows:

2022		2023		2024		Expected to be implemented in 2025	
Amount (m3)	Transaction value (billion VND)	Amount (m3)	Transaction value (billion VND)	Amount (m3)	Transaction value (billion VND)	Amount (m3)	Transaction value (billion VND)
322,644	6,605	431,911	8,547	402,430	7,284	410,000	5,874

(Details provided in Appendix 01)

With a projected volume of 410,000 m³ in 2025 and considering the current high global oil prices, which may continue to fluctuate, the estimated transaction value is VND 5,874 billion, exceeding 35% of PETEC's total assets as of December 31, 2024 (total assets as of December 31, 2024, were VND 1,234.36 billion).

According to Article 167 of the Law on Enterprises No. 59/2020/QH14 dated June 17, 2020, and Article 293 of Decree No. 155/2020/ND-CP dated December 31, 2020, internal transactions between PETEC and shareholders owning more than 10% of PETEC's total ordinary shares, as well as their related persons, must be approved by the General Meeting of Shareholders if the transaction value exceeds 35% of PETEC's total assets in the latest financial statements.

Therefore, the Board of Directors must submit the draft contract, transaction, or an explanation of the key details for approval at the General Meeting of Shareholders or by collecting shareholder opinions in writing (as detailed in Section 3).

3. Some main contents of contracts and transactions expected to be signed

- Contracting parties: PetroVietnam Oil Corporation and PETEC Trading and Investment Corporation.

- Purpose of implementation: Serving the production and business plan of the PETEC Trading and Investment Corporation.

- Transaction Goods: Various types of petroleum products, with an estimated volume of approximately 410,000 m³.

- Transaction price: Consistent with the market price at the time of transaction (as stated in Section 1).

- Implementation time: From the date of approval of the Resolution of the 2025 Annual General Meeting of Shareholders to the date of approval of the 2026 Resolution of the Annual General Meeting of Shareholders, but not later than June 30, 2026.

4. PETEC proposal

To proactively ensure a stable supply and optimize business efficiency to achieve PETEC's 2025 targets while complying with current regulations, the Board of Directors respectfully submits for approval by the General Meeting of Shareholders the proposal to authorize PETEC to enter into petroleum trading transactions with PVOIL, which holds 94.55% of PETEC's contributed capital (subject to approval by the 2025 General Meeting of Shareholders). The Board of Directors is also authorized to determine the contract terms based on the key provisions outlined in Section 3.

PETEC commits to executing these contracts and transactions in full compliance with legal regulations, ensuring alignment with market prices, and safeguarding shareholder interests. The Board of Directors will provide a detailed report on the

contract execution to the Board of Supervisors immediately after signing the contracts and transactions mentioned above and to shareholders within one week from the contract signing date.

Best regards./.
