### 3. Supervising the Board of Management by the Board of Directors

The BOD regularly monitored and supervised the activities of the BOM and collaborates with the BOS to inspect and oversee all activities of the BOM in performing their assigned duties based on the Charter and the Regulations on the Organization and Operation of the BOD. The BOD refrains from direct intervention in the CEO's operational duties, supporting the CEO in effectively implementing resolutions and decisions from the General Meeting of Shareholders and the BOD.

#### 3.1. Oversight of the first 6 months 2025

In 2025, the global petroleum market experienced significant fluctuations driven by the intertwined impacts of supply-demand dynamics and geopolitical developments. Oil prices dropped sharply at the beginning of the year following OPEC+'s decision to raise production in May, along with concerns over U.S. tariff policies, particularly due to escalating U.S.-China trade tensions. However, rising tensions in the Middle East, the ongoing Russia-Ukraine conflict, progress in U.S.-Iran nuclear negotiations, and the outcome of U.S.-China trade discussions contributed to a rebound in oil prices later in the year. Global oil prices remained volatile, exerting considerable influence on the domestic market. Against this backdrop, domestic fuel consumption declined due to stagnation in manufacturing and transportation activities, and increasing adoption of fuel-efficient vehicles. These factors significantly impacted the Corporation's business performance. In response, the Corporation's BOM closely supervised and issued specific directives to the Board of General Directors on management and operations as follows:

Production and Business Operations: Direct, urge, and supervise the Executive Board in implementing the production and business plan as well as other key tasks for 2024 as assigned by the General Meeting of Shareholders and the BOM. Measures were taken to respond to market fluctuations and the impacts of Typhoon Yagi. The BOM identified and leveraged development opportunities to increase business output, expand market share, and optimize the operation of petroleum terminal systems.

- Debt Management: Enhance debt management efforts to prevent new bad debts, closely monitor overdue debts, and actively pursue the recovery of outstanding and uncollectible debts, ensuring healthy financial conditions.

- Corporate Governance and Service Quality Improvement: Continue to instruct the Board of General Directors to review, revise, and develop new internal regulations, processes, and guidelines to align with legal requirements and the Corporation's operational realities. Strengthen efforts to implement and maintain projects aimed at improving the quality of fuel storage services, PVOIL Easy services, and integrated payment methods such as PVOIL Easy and PVOIL 4U, contributing to increased retail sales across the Corporation's petrol stations. Embrace advanced 4.0 technologies and digital transformation initiatives to enhance management capabilities and the efficiency of production and business activities.

The BOD consistently maintained close and effective coordination with the BOM and the BOS in implementing resolutions of the General Meeting of Shareholders and the BOD, ensuring compliance with laws and internal regulations in the management and operational activities of the corporation

### **3.2. Supervision Results**

The BOM properly performed the assigned functions and tasks, managing the production and business operations of the Corporation in line with the goals and directions set by the General Meeting of Shareholders and the BOD. In the face of market challenges, the BOD directed the BOM to continuously strive, reassess the system, and implement synchronized business solutions. The investment and development of petrol stations through various forms were strengthened development of 06 petrol stations in the first 6 months 2025 and completed beyond the planned targets set in 2025. In corporate management and operations, the CEO and Executive Board complied with relevant legal regulations, performed their functions and tasks as prescribed in the Corporation's Charter and internal governance regulations, and fully and seriously implemented the resolutions and decisions of the General Meeting of Shareholders and BOM with positive results. They directed the Corporation's operations according to the approved strategy and strictly followed disclosure regulations for public companies.

### **4. Activities of the Board of Directors' subcommittees (if any)**

Currently, the BOM has not set up subcommittees. The relevant areas of the BOM are advised by the secretary and professional departments.

### **5. Resolutions/Decisions of the Board of Directors**
